

Long-Term Community Recovery Planning Process - A Guide to Determining Project Recovery Values

By Federal Emergency Management Agency U.S.

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 64 pages. Dimensions: 11.0in. x 8.5in. x 0.1in. Communities face many challenges following a disaster, including determining where the limited resources for their recovery are to be expended. After the initial emergency phase of a disaster response is completed, such as the rescue of those in need, the repair of critical services including water and power, and the restoration of key governmental functions, a community becomes focused on its long-term rebuilding. It is important to understand that there may be multiple funding sources available after a disaster event, but that resources may not be sufficient to undertake all the projects a community may ultimately need for full recovery. A first step for many communities may be to look to existing local comprehensive plans, capital improvement plans, hazard mitigation plans, or other similar documents to identify previously developed project priorities. The process identified in this Recovery Value Tool builds upon those priorities and provides a systematic methodology to evaluate recovery projects for the community. Fundamentally, this tool allows for an evaluation of priorities based upon the impacts of the recent disaster and the physical and community needs...
