Brand New Book ***** Print on Demand *****.There are many different models of marriage and family therapy; the challenge for students and beginning practitioners is deciding which one best suits their individual purposes. This highly practical volume elucidates the defining characteristics of 14 contemporary models, including their history, views of change, views of family and the role of the therapist; and methods of assessing family dynamics, goal setting; facilitating change; and knowing when to terminate. Each chapter also includes a template for implementing therapy models, and realistic case studies-many drawn from actual practice-to illustrate how each model would address common issues. In addition, the volume includes extensive interviews with master therapists such as Albert Ellis, Insoo Kim Berg, Sue Johnson, Susan McDaniel, Derald Wing Sue, and many others. They share their ideas of the ways in which change occurs, how they set goals, and how they perform therapy. For further clarification, each therapist illustrates how he/she would proceed via the same case study. Learning how to perform effective family therapy can be an arduous process of trial and error, yet this resource will ease the way for students and currently practicing family therapists who need to revisit the basics.
