Excerpt: . . . for indicating the relative effect of shape and size. The new observations were carried out on November 25, 26, December 5 and 11, and comprised over 80 individual experiments. The detailed observations of both series are presented in Tables XIV and XV, placed at the end of this chapter. The column headed description of planes gives the dimensions and weight of the planes. The aspect of the plane--i. . . , its position with respect to the The square foot was adopted as a unit in the earliest experiments, and its use has been continued as a matter of experimental convenience, owing to considerations bearing upon the uniformity of apparatus. Were these experiments to be recommenced, I should prefer to use C. G. S. (or at least metric) units throughout. Third, many of the curves show a tendency to reach a minimum point for an...
