Conference on the Numerical Solution of Differential Equations

By J. L. Morris

Springer Jan 1969, 1969. Taschenbuch. Book Condition: Neu. 235x155x15 mm. This item is printed on demand - Print on Demand Titel. Neuware - Generalisation of an inclusion theorem of L.COLLATZ.- On certain iterative methods for solving nonlinear difference equations.- Instability when solving Volterra integral equations of the second kind by multistep methods.- Numerical solution of boundary value problems in Chebyshev series A method of computation and error estimation.- The numerical stability in solution of differential equations.- On the effects of scaling of the peaceman-rachford method.- The effective order of Runge-Kutta methods.- Error bounds for some single step methods.- Approximation of nonlinear operators.- On the numerical treatment of hyperbolic differential equations with constant coefficients, particularly the n-dimensional wave equation.- Monotonic difference schemes for weakly coupled systems of parabolic differential equations.- The numerical solution of evolutionary partial differential equations.- A method for the numerical integration of non-linear ordinary differential equations with greatly different time constants.- Numerical solution of two differential-difference equations of analytic theory of numbers.- Global accuracy and A-stability of one- and two-step integration formulae for stiff ordinary differential equations.- Optimal order multistep methods with an arbitrary number of nonsteppoints.- Alternating direction methods for parabolic equations in two and three space...

Reviews

Extensive guide for publication fans. It can be rally exciting throgh studying time. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Maurine Rohan**

It in a single of my personal favorite book. I really could comprehended almost everything using this composed e book. Your daily life period will be enhance the instant you complete reading this article pdf.
